

Group 7 - Sprint 5 Review Report

(Otto Pärnänen, Jarmo Illikainen, Aaron Lyhtinen)

What has been done:

- We did complete product backlog for all the sprints until last sprint which is in trello
- Externalized all texts
- Added .properties files for Japanese and Russian and English to load all the languages without problem while using the application
- Added dropdown to choose language from and the logic to check which languages application should be using
- We've done localization completely for Japanese and Russian and English:

- At the last added all the documentation and updated README

- Planned next sprint

What is in progress:

- Nothing major is in progress, just some manual testing

Obstacles we faced:

- There were no obstacles because we understood clearly how to do the localization.

How much each has done work:

Group members' names	Tasks	Hours
Aaron Lyhtinen	Externalizing, documenting and translating Russian	About 10 hours
Jarmo Illikainen	Translating Japanese and inserting all the .properties into the correct places to localize	About 10 hours
Otto Pärnänen	He did the logic and functionalities for the localization (programming part)	About 10 hours
